COMPANY PROFILE

The "PERFECT SYSTEMS" for your coding requirements™

CONDOT®
SYSTEMS PVT. LTD.

Global Enterprise for Excellence

CERTIFICATE OF CONFORMANCE

Awarded to

Condot Systems Pvt. Ltd

122, Niraj Industrial Estate, Behind Paper Box, Off Mahakali Caves Road, Andheri (E) Mumbai, 400093

Global Enterprise for Excellence hereby certifies that the above organisation located at the address(es) provided above was evaluated for compliance to the following criteria and scope and the systems and effectiveness were found to be in conformance to the requirements as given below.

Standard

ISO 9001:2015

Scope Awarded

a. Design, Software and Hardware Development, Manufacture, Supply, Installation and Servicing of Serialization Equipment Systems (Track & Trace) for Pharma & Packaging Industry

b. Solution Design, Import, Customise, Supply, Installation and Servicing of Coding & Marking Systems for Pharma, Printing & Packaging Industry

Certificate Number: 112012010017
Audit Completion Date: 07.11.2020
Original Issue Date: 12.11.2020
Valid Till: 11.11.2023
Last Recertification: New Certificate

GBAS

Global Enterprise for Excellence

CONDOT ®
SYSTEMS PVT. LTD.

- Our Philosophy
  - To explore beyond limits to understand market demands and provide solutions
  - With our farsightedness retain customers and increase customer Satisfaction

- Over two decades of experience with OEM & end Users to provide solutions at different level by addressing their demand and market needs

- Focus on Application Developments

- One stop comprehensive Solution Provider

- Seventh largest global partner in supply chain of HP-SPS division
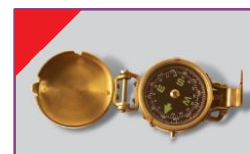

- Average Growth 20-25%.

A Solid foundation lets us explore and expand without limits

We understand the demands of both ends of work
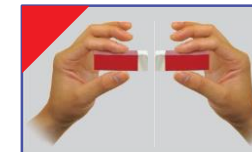

We're building tomorrow right now

Foresight lets us see opportunity but it is character that lets us seize it

We'll stick with you wherever you go

Come with us
our aim is to continually increase the satisfaction of our customers

Think A Wish Granted

Thoughts are the fertile ground where possibilities are born. Back in 1994, Condot was a product of such possibilities that probably was conceived in the minds of its customers. The possibility of creating a one stop Shop where all their Package Coding and Variable Data Printing requirements are met.

The goal Condot Systems Pvt. Ltd. set for itself was ambitious as well as the need of its customers. Translating all requirements in the minds of a customer into reality. This meant answering their one basic question. Can Serialization, Track & Trace, Print & Verification, Global Serialization, Anti-counterfeit or Authentication solutions be achieved by one company. Condot achieved it by relying on continuous innovation that allowed it to grow.

Condot achieves this through 3 pillars of its belief system, Quality, Consistency and Reliability. This coupled with the foresight of its founders to constantly be ahead of the learning curve After all your ideas are our inspiration.

Bringing Thoughts to Reality

Condot has earned its stripes as first among equals to any global player catering to Coding, Marking & Commercial Variable Data Printing applications with their bouquet of innovative solutions that has built-in security features.

Condot is the preferred partner for a one-stop comprehensive solution, working with OEM & End-users to provide multilevel solutions aimed at addressing their unique demand & market needs in an experience that now spans two decades.

Visualizing the future today is the foresight with which Condot operates that help us to seize future opportunities and build them in the present. A testament to our vision is not just our spectacular growth or our technical capabilities but also the fact that the industry heralds us as the harbinger of TIJ Technology in India. Industry recognition is the sole testimonial that makes building future today so worthwhile and spurs us to capture global opportunities.

A thought to Protect Brand Value : Serialization

Brand image is at the core of pharmaceutical industry who rely a lot on protecting safety of patients. Proliferation of drug counterfeiting, theft and supply inefficiencies can compromise patient safety thereby hampering brand image. Serialization is not just a solution but a regulatory requirement across the World. Condot provides Serialization solutions with unique features like Rejection Marking, Invisible Marking and 2 Colour Printing that are critical to keep spurious drugs out of the supply chain.

Condot works on providing Serialization Solutions that are aimed to be:
• Compact, modular
• Seamlessly integrate into new or existing production environment
• Combine all necessary functions within a small footprint
• Flexible to adapt to work flow
• Have powerful front-end (GUI)

GTIN : 89011300000000
EXP : NOV-21
B.No : HKP1221
UID : G68R6DFFG2B

Visualizing Compliance inside out : **Track & Trace Software**

Compliance today is at the heart of global pharmaceutical supply chain and needs to be integrated as part of the process at ground Zero. Serialization challenges exists due to various legislation across the World and compliance aims to solve the process of management, exchange and reporting of serialization data to the ecosystem of trading partners and regulatory bodies.

- Safe, Reliable, Scalable, Modular, Flexible
- Monitors all the processes with a Unique Serial Number and assured Traceability

Condot's rTracker® is a One-Stop System Solution for Serialization and Track & Trace processes, It combines all above benefits while complying with standards of cGMP and user data security as per 21 CFR Part 11.

An Eye for detail : Print & Verify

Speed is the essence of business growth and while the ability to be versatile at printing, marking and coding products in either compact sizes or large units has to be considered critical, it is even more crucial to have the ability to Print & Verify.

Condot not only has the Variable Data Printing quality but also has comprehensive solutions for inspecting Variable Data Integrity and Print Quality Inspection. Solutions from Condot provides:

- Real time identification of print errors
- Simultaneous print quality and data integrity verification
- Multi format reporting

A Vision for Future eventualities, Secured today : Scalability & Flexibility

Unpredictability is a characteristic of any Global business environment. Regulations, Laws and inter-country differences in requirements have to be hard wired-in while making capital investment decisions on machinery and software. It also needs to account for any changes within the same system on account of change in Government regulations.

- rTracker® software allows scalability to administrate infinite UID range, while being produced and packed simultaneously in multiple lines or machines for different customers, products and countries
- Modular architecture saves time and cost in revalidation and qualification process and customizable to customer needs.

Values in the thoughts elevate work : After Sales Service

Sales is just the beginning of a relationship. Service is the test of a relationship. We have prided ourselves on not only securing new customers but also on retaining most of them. Our success is defined by the satisfaction of our customers and all our Global clients testify to our effort in maintaining high levels of after sales service as we truly believe that we are with you all the way in the journey. We have quickly risen up to be among the top global suppliers for our clients but our roots will remain grounded on service and satisfaction.

Whenever you think of a one stop solution provider for Serialization, Track & Trace. Print & Verification, Global Serialization One, Anti-counterfeit or Authentication

Thank You
